Updates to 360 Platform and Report

Feedback Coach – Direct Report Access for Coaches

Coaches can now directly access 360 Digital Reports for their assigned participants, eliminating manual report sharing and streamlining coaching workflows.

What coaches can do:

- View assigned groups and participants
- Access reports across multiple projects
- Mark coaching conversations as completed

How it works:

Admins map coaches to participants and groups in the system. Once configured, coaches automatically gain access to relevant reports—no manual sharing needed.

Who benefits:

- **Coaches** – Instant access to the right reports for timely, informed conversations
- **Admins** – Reduced manual report distribution and setup effort
- **Organizations** – Scalable, consistent coaching experiences

Availability: Now live for Advanced package customers.
